[14] Only for M_1 with frontal steering and N_1 < 1.500 kg, except for the provisions in paragraph 5.1, which enter into force at 24-08-1997 for new vehicle types.

[15] For all M_1.

[16] As from 25-12-1997 Contracting Parties shall cease to issue approvals for new types of steering mechanisms that contain an airbag.

[17] As from 23-06-2015 Contracting Parties shall not grant extensions to approvals issued to the previous series of amendments in respect of vehicles having an electrical power train operating on high voltage.

[18] Except vehicles types having an electrical power train operating on high voltage.

[19] Contracting Parties may continue to grant R12.03-approvals until the mentioned date provided that the manufacturer demonstrates to the satisfaction of the Technical Service, that the vehicle provides equivalent levels of safety to those required by R12.04. All vehicles types, included those having an electrical power train operating on high voltage.

[38] CP shall refuse to grant approvals for new types of Class B front fog lamps. CP shall continue to issue approvals for Class B front fog lamps on the basis of the 02, 03 and 04-series of amendments, provided that these front fog lamps are intended as replacements for fitting to vehicles in use.

[39] CP shall refuse to grant any extensions of approvals for all Class B front fog lamps except those intended as replacement for fitting to vehicles in use. CP shall continue to grant extensions of approvals for all Class F3 front fog lamps.

[40] As from 15-10-2021 Contracting Parties shall cease to grant approvals to this Regulation. Extensions of approvals to the preceding series of amendments of this Regulation are allowed. New type-approvals to the preceding series of amendments of this Regulation are also allowed, provided that the devices are intended as replacements for fitting to vehicles in use.

[41] As from 21-03-2002 Contracting Parties shall cease to grant approval according to R20. CP shall continue to issue approvals on the basis of this and any previous series of amendments to R20, provided that the headlamps are intended as replacements for fitting to vehicles in use.

[65] Engine system or vehicle must comply with the requirements of paragraph 4.1, the performance monitoring requirements of paragraph 2.3.2.2 of Annex 9A, the NOx OTL monitoring requirements as set out in the row 'phase in period' of the tables 1 and 2 of Annex 9A, and the reagent quality and consumption 'phase-in' requirements as set out in paragraphs 7.1.1.1 and 8.4.1.1 of Annex 11.

[66] In accordance with the requirements of paragraph 6.4.4 of Annex 9A manufacturers are exempted from providing a statement of OBD in-use Performance compliance.

[67] Engine system or vehicle must comply with the requirements of paragraph 4.1, the PM mass OTL monitoring requirements as set out in the row 'phase in period' of table 1 of Annex 9A, the NOx OTL monitoring requirements as set out in the row 'phase in period' of the tables 1 and 2 of Annex 9A, and the reagent quality and consumption 'phase-in' requirements as set out in paragraphs 7.1.1.1 and 8.4.1.1 of Annex 11.

[68] Engine system or vehicle must comply with the requirements of paragraph 4.1, the PM mass OTL monitoring requirements as set out in the row 'phase in period' of table 1 of Annex 9A, the NOx OTL monitoring requirements as set out in the row 'phase in period' of the tables 1 and 2 of Annex 9A, the reagent quality and consumption 'phase-in' requirements as set out in paragraphs 7.1.1.1 and 8.4.1.1 of Annex 11, and the requirements of paragraph 6.4.1. of Annex 9A for providing a statement of OBD in-use Performance compliance.

[69] New types of positive-ignition engines, type 1A dual-fuel engines and type 1B dual-fuel engines (in dual-fuel mode), and vehicles equipped with such engines, shall comply with the maximum allowed conformity factor for PM number according to paragraph 6.3. of Annex 8 with effect from 1 January 2023. However, as from the date of entry into force of this Regulation, the particle number work window conformity factor and CO2 mass window conformity factor shall be stated in the PEMS demonstration test results in the type-approval communication for monitoring purposes.

[87] For the use of a R83.04-type approval in the EU of $M_1 \leq 2.500$ kg or N_1, class I.
[88] For the use of a R83.04-type approval in the EU of $M_1 > 2.500$ kg or N_1, class II or III.
[89] For the use of a R83.05, row A-type approval in the EU of $M_1 \leq 2.500$ kg or N_1, class I.
[90] For the use of a R83.05, row A-type approval in the EU of $M_1 > 2.500$ kg or N_1, class II or III.
[91] Only for M or N_1, they must meet the requirements of the table in paragraph 5.3.1.4, row A or B.
[92] Until 01-01-2003 a vehicle of category $M_1 > 2.000$ kg with a diesel engine is considered to be a vehicle of category N_1 if it is suitable for carrying more than six persons (including the driver) or if it is an off-road vehicle.
[93] Does not apply to vehicles intended for export to countries where unleaded gasoline, unleaded gasoline with a sulphur content not exceeding 50 mg / kg or diesel fuel with sulphur content not exceeding 350 kg / kg is not available.
[94] For type-approvals according to R83.04 of vehicles of category M ≤ 2.500 kg or N_1, class I.
[95] Applies to the use of the Type VI test according to Annex 8 for vehicles of category M_1 and N_1 class I, except those vehicles which are suitable for carrying more than six persons (including driver) or vehicles > 2,500 kilograms.
[96] For type approvals according to R83.04 of vehicles of category M > 2,500 kg or category N_1 class II or III and for vehicles with a diesel engine with direct injection and suitable for carrying more than six persons (including the driver).
[97] Only for vehicles of category M ≤ 2.500 kg or N_1, class I; they must meet the requirements of the table in paragraph 5.3.1.4, row B.
[98] For type-approvals of vehicles of category M ≤ 2.500 kg or N1, class I according to R83.05, table 5.3.4.1, row A.
[99] Only for vehicles of category M > 2.500 kg or N_1, class II or III; they must meet the requirements of the table in paragraph 5.3.1.4, row B.
[100] For type-approvals of vehicles of category M > 2.500 kg or N1, class II or III according to R83.05, table 5.3.4.1, row A.
[101] Vehicles of category M_1 or N_1.
[102] Vehicles of category $M_1 \leq 2.500$ kg or N_1, class I, whether or not runs permanently on LPG or CNG.
[103] Vehicles of category $M_1 > 2.500$ kg or N_1, class II or III, whether or not runs permanently on LPG or CNG.
[104] Vehicles of category $M_1 \leq 2.500$ kg or vehicles suitable for six persons or less (including the driver).
[105] Vehicles of category $M_1 \leq 2.500$ kg and N_1, class I.
[106] Vehicles of category $M_1 > 2.500$ kg and N_1, class II or III.
[107] Vehicles equipped with a petrol engine, vehicles of category $M_1 \leq 2.500$ kg and equipped with a diesel engine, and N_1, class I equipped with a diesel engine.
[108] Vehicles of category N_1, class II or III equipped with a diesel engine and $M_1 > 2.500$ kg equipped with a diesel engine.

[132] Sales ban for tires of class C1 with a section width ≤ 185, class C2 and class C3.

[133] Sales ban for tires of class C1 with a section width > 185, but ≤ 215.

[134] Sales ban for tires of class C1 with a section width > 215.

[135] Only regarding the wet grip.

[136] Tire must meet stage-2 rolling sound limits of paragraph 6.1.1 to 6.1.3, wet-grip performance of paragraph 6.2.1 and stage-1 rolling resistance limits of paragraph 6.3.1.

[137] Tire must meet stage-2 rolling sound limits of paragraph 6.1.1 to 6.1.3, wet-grip performance of paragraph 6.2.1 and stage-2 rolling resistance limits of paragraph 6.3.1.

Guideline entry dates of Regulations

What and for whom

For the various vehicle categories and vehicle parts, regulations apply which contain requirements for vehicles or vehicle parts. This document contains the entry dates on which new types of vehicles of vehicle parts must comply with the relevant regulations. It also contains the dates when old type-approvals become invalid. This document is intended primarily for the business user. When new or amended regulations are published, this document will be updated as soon as possible.

How to read

The table contains five columns, whose titles are listed below.

Column 1	Column 2	Column 3	Column 4	Column 5
Regulation number and subject [scope]	Amendments and Corrections	Date of entry into force	Entry date for new types of vehicles or vehicle parts	Validity of old type approvals

Clarification:

Column 1

Regulation number and subject. Between the square brackets the scope is indicated.

Column 2

Amendments and corrections to the regulation of column 1.
A revision and the number of revision (consolidated text) is indicated in superscript between the brackets.

Column 3

Date of entry into force for the regulation, amendment or correction.

Column 4

Entry date on which new types of vehicle or vehicle parts must meet the requirements of the regulation of column 2.

Column 5

Date on which old type approvals become invalid.
The letters 'p' and 'i' are referring to the regulations regarding a 'part' or the 'installation' of that part.

Format

blue	Changes to the previous version of entry dates
xx-yy-zzzz	Amendment is adopted by WP.29. The date of entry into force is definitive. The issuing of a type approval is allowed if the date has been passed.
[xx-yy-zzzz]	Amendment is adopted by WP.29. The mentioned date is the most probable date of entry into force. The issuing of a type approval is not allowed, except where the date has been passed.
[?]	Amendment is to be voted on in the next WP.29 meeting or is already adopted by the latest WP.29, but a date of entry into force is not yet known. The issuing of a type approval is not allowed.
