¹⁰⁴ CP shall not refuse to grant extensions of approvals issued to the preceding series of amendments, when this extension does not entail any change to the propulsion system of the vehicle. However, as from June 23, 2013 extensions to approvals issued to the previous series of amendments shall not be granted after this date in respect of vehicles having an electrical power train operating on high voltage.

¹⁰⁵ Approvals of the vehicles to the R95.02 which are not affected by the R95.03 shall remain valid.

¹⁰⁶ For vehicles having an electrical power train operating on high voltage, provided that the manufacturer demonstrates, to the satisfaction of the Technical Service, that the vehicle provides equivalent levels of safety to those required by R95.03.

Guideline entry dates of Regulations

What and for whom

For the various vehicle categories and vehicle parts, regulations apply which contain requirements for vehicles or vehicle parts. This document contains the entry dates on which new types of vehicles or vehicle parts must comply with the relevant regulations. It also contains the dates when old type-approvals become invalid. This document is intended primarily for the business user. When new or amended regulations are published, this document will be updated as soon as possible.

How to read

The table contains five columns, whose titles are listed below.

Column 1	Column 2	Column 3	Column 4	Column 5
Regulation number and subject [scope]	Amendments and Corrections	Date of entry into force	Entry date for new types of vehicles or vehicle parts	Validity of old type approvals

Clarification:

Column 1

Regulation number and subject. Between the square brackets the scope is indicated.

Column 2

Amendments and corrections to the regulation of column 1. A revision and the number of revision (consolidated text) is indicated in superscript between the brackets.

Column 3

Date of entry into force for the regulation, amendment or correction.

Column 4

Entry date on which new types of vehicle or vehicle parts must meet the requirements of the regulation of column 2.

Column 5

Date on which old type approvals become invalid.

The letters 'p' and 'i' are referring to the regulations regarding a 'part' or the 'installation' of that part.

Format

blue	Changes to the previous version of entry dates
xx-yy- zzzz	Amendment is adopted by WP.29. The date of entry into force is definitive. The issuing of a type approval is allowed if the date has been passed.
[xx-yy- zzzz]	Amendment is adopted by WP.29. The mentioned date is the most probable date of entry into force. The issuing of a type approval is <u>not</u> allowed.
[?]	Amendment is adopted by WP.29, but a date of entry into force is not yet known. The issuing of a type approval is <u>not</u> allowed.
